WEBSITES

We build custom websites with creative design and feel that is engaging for your audience and consistent with your brand. We develop our sites to be compatible on any internet-device, and we can provide Content Management Systems so you can update your site with ease. Whether for business, media, services, blog, sales, or more, we can build the site you need.

FLYER DESIGN

Invitations to Parties, Graduations, Concerts, Weddings, and any other event, we can design a creative flyer or infographic to help promote the occasion.

CUSTOM DESIGN
For Music Artwork, Brochures,
Shirt Designs, Banners, or
other needs, we can
design a creative product
for you.

PRICING

Simple Website (1-2 pages)	\$250*
Full Website	\$450*
Flyer Design	\$50
Business Card Design	\$40
Logo Design	\$75
Custom Design	\$50*

* - This is just the starting price, the final quote is given once design is requested.

All design prices may vary depending on complexity of request and number of designs. For all quotes \$100 and under, full payment is required prior to any work. For all quotes above \$100 and below \$500, 50% deposit is required prior to any work, and the remaining due upon finalization stages. For web quotes above \$500, payments is required before each development stage. The client is responsible for any due payments once a project has began. Refunds can be requested prior to the start of a project or stage.

WE DO MORE 4 YOU

Customer satisfaction is our number one concern when designing. We want to make sure the product we create is creative, unique, fit for your style, and helps build your business.

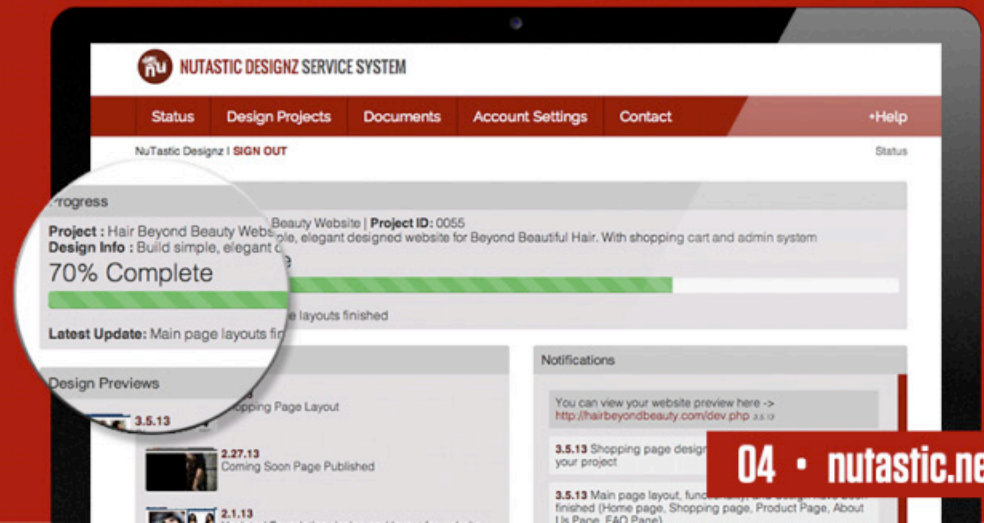

BRANDING YOUR BUSINESS

We consult and work with all our clients to make sure the design we create is one that represents the look, feel, and identity of the brand. We listen to your ideas and concepts as well as provide our own professional knowledge and advice to bring out the best results. We offer full branding solutions as well, from full website development, to the logo, business cards, and more.

TRACK YOUR DESIGN

Staying updated with the progress of your project is important, so we built our own custom system so our clients can login and track the progress of their design. All of our clients are given an account where they can check the status of their project, view previews, drafts, and related documents from a mobile phone, computer, or tablet.
